## **HOME INSPECTION LIST**

The Central Jersey Housing Resource Center (CJHRC) believes that once you find a home you like and want to buy, you would find it beneficial to have a professional home inspection. A home inspection analyzes a home. The inspection reviews a home's construction, the level of maintenance, the quality of individual parts, replacement cycles and any remodeling or other improvements that have been made. Home Inspections can save homeowners thousands of hard earned dollars.

You will then need to consider if the home is especially well built and decide which factors are most important to you. If a home has been well maintained, it can command a price much higher than the same home with fair or poor maintenance. However, homes with poor maintenance can be bought at favorable prices. Even a sound home will have integral parts that will need replacing on a fairly regular cycle. You should know the replacement cycles for these parts and be able to recognize where they are in their estimated life cycle.

It is also helpful to know the maintenance costs, such as repainting, installing gutters and downspouts, sanding and finishing floors, window repair and minor carpentry. As a homeowner, you will be paying for the maintenance. A home inspection will help you estimate the expenses or replacement costs you may incur if you purchase the property being inspected.

### **Home Inspectors List & Disclosure**

We have made every effort to provide the most current and accurate information, however CJHRC cannot be responsible for inaccurate or outdated information contained on this page. The below is a list of local home inspectors. You are not required to hire or contact any of these home inspectors. **We encourage you to review and consider any home inspection company including those not on this list.**
